

THE Gleichen Call

Provincial Library Dec '30

TWENTY-FOURTH YEAR NO. 31

GLEICHEN, ALBERTA, WEDNESDAY, OCTOBER 29, 1930

SUBSCRIPTION \$200 PER YEAR

MINUTES OF BLACKFOOT M.D. MEETING

Minutes of the meeting of the Council of M. D. of Blackfoot, No. 218, held in the municipal office Gleichen. Present: Reeve Thorssen, Deputy Reeve Maynard, and Councillors Daw, Deschamps, Umbrite and Wheatley.

There was one bid for the old 20-foot bridge on the old road allowance on the northwest 20-24-22-4th, and on motion of Councillor Deschamps this bridge was sold to Carl Sheets for the amount offered by him of \$17.

Further correspondence between Mr. Stockton of the C.P.R. Department of Natural Resources, Strathmore, and the municipality re agreement in respect to the bridging of the Mennonite and D Spillway coulees was read and Reeve Thorssen reported that Road Commissioner Wright and himself had interviewed Mr. Stockton on September 16th, and that an understanding was expected. However, Mr. Stockton had written confirming this agreement and while the provisions were satisfactory in the main the letter was so worded that he would be more satisfied to leave its acceptance in abeyance until certain details could be further discussed.

Coun. Maynard: That the Mennonite Coulee and D Spillway agreement with the C.P.R. be left in the hands of Reeve Thorssen and Road Commissioner Wright for further discussion.—Carried.

The secretary reported: That Weed Inspector Danstan had completed his season's work on Sept. 25th. That since the last meeting Surveyor Mitchell had completed the five surveys on file. That \$300 additional capital grant applied for at the last meeting had been authorized and agreements signed. That the telephone engineer in charge of the Trans-Canada line had advised that his department had an agreement with the Highways Department for one brace pole on the centre line of each mile and situated not more than eight feet from the property line. That they would live up to this agreement with the municipality and any poles further into the road than eight feet would be remedied.

Councillor Umbrite: That the Alberta Telephones, plant department, be notified that this municipality will not be responsible for any damage through road construction to their poles if set more than five feet from the property line.—Carried.

Councillor Wheatley: That Messrs Daw and Deschamps be our delegates to attend the convention of the Alberta Association of Municipal Districts at Calgary on November 19, 20 and 21.—Carried.

Councillor Wheatley: That our inspector's recommendation for a mother's allowance to Mrs. Iwaskiev, of Chancellor, at \$50 per month be approved.—Carried.

Councillor Daw: That the following resolution be sent to the Association secretary to be taken up at the coming convention:

"Resolved that the Noxious Weed Act be amended to have the farmers on adjoining land responsible for weeds and control them up to the centre line of all road allowances contiguous to their land.—Carried.

An account from the Alberta Telephones, the sum of \$146.88, for moving poles north of Cluny, on account of their stability being affected through road construction was placed before the council and discussed in detail.

Councillor Maynard: In order to bring this road up to standard specifications it was necessary to move earth from near the sides of the road and for protection the earth was left near the poles. This interfered with the machinery and the inconvenience of getting earth elsewhere resulted in increased construction costs. The stability of seven poles may have been affected, more or less, but this account for resetting is so excessive that we are compelled to refuse to settle.—Carried.

Councillor Wheatley: That the accounts and pay sheets as o.k'd. by the finance committee be passed and ordered paid.—Carried.

After the reading of a letter from

MRS. J. R. ALLGOOD DIED SUDDENLY AT CALGARY

It was with great surprise and the deepest regret that it was learned Mrs. Jennie Allgood, wife of Mr. J. R. Allgood, who farms four miles directly north of town, had passed away in her sleep, about 2 o'clock Sunday morning.

She had been spending a few days in Calgary with her daughter Mildred. Mrs. Guy E. Trace, and Saturday had been shopping with her daughter nearly all day, and went to bed about 11 that night, apparently in good health. About 2 a.m., Mrs. Trace who was sleeping with her mother awakened and after several attempts to get her mother to move aroused her husband who at once noticed her eyes seemed glazed and phoned for a doctor, but when he arrived she had passed away, never regaining consciousness.

The funeral is to take place in Calgary at 2 o'clock this afternoon—Wednesday.

Mrs. Allgood was born in England and came with her parents to Blackfoot, Idaho, when a very small child. In June 1906 she came to Gleichen with her husband and family and has resided here ever since and made many friends for herself during all those years, who deeply regret her loss and extend the deepest sympathy to the bereaved husband, daughter and brother in their sorrow.

Besides her husband and daughter in Calgary she leaves a brother Mr. John Naylor in Salt Lake City. For many years her brother James A. Naylor, and her father and mother Mr. and Mrs. Thos. Naylor resided here, all of whom died here some years ago.

Acting Deputy Minister R. English, of the Department of Municipal Affairs, re unemployment relief and the government making available a sum of money in lieu of income and capital grants for 1931, equal to the grant earned by the respective municipal district in the year 1930, Reeve Thorssen gave his reasons why application had been made for the sum of \$1,000 of the 1931 grant to be expended on the road from the south east corner of the S.E. 15-24-22-4th and west. Culverts in this road had deteriorated to such an extent that replacement was necessary and the hauling and freso work in connection with installing would exceed the amount that the municipality would be prepared to expend. By making application for this grant the work could be undertaken. The application was made on the 2nd after consulting with the approval of the deputy reeve and he instructed that all councillors be advised by mail. After the ratepayers meeting at Chancellor, attended by the whole council, Councillor Umbrite and himself had dictated a telegram to the Deputy Minister of Public Works advising of that meeting and the demand by the ratepayers for relief roadwork. Since that time we have been advised that the \$1,000 grant had been approved. The situation today is that culverts have been installed and a few men given relief work. A balance of \$1,100 was available for relief freso work. The whole Council approved the action of the reeve in making application for the \$1,000 of the 1931 grant. Discussion followed as to the necessity and advisability of making application for an additional amount of the 1931 grant and the location where the work was urgently needed. Deputy Reeve Maynard advised that he had put his needy ratepayers to work with the unexpended balance of his divisional allocation. Councillor Wheatley advised that conditions were so acute in his district that he would be prepared to surrender \$1,000 of his division's credit to be put against a similar grant to give his ratepayers relief work in the district highway in his division.

Councillor Wheatley: That we make application for an additional \$1,000 of our 1931 grant from the Department of Public Works to be expended for relief roadwork on District Highway south of 13 and 14 in

(Continued on another page)

ST. LAWRENCE-GREAT LAKES WATERWAYS PICTURES-LECTURE

Monday, November 3rd

On Monday, 3rd November, the Canadian Club of Gleichen will hold a meeting to hear Mr. H. G. Nolan on the St. Lawrence-Great Lakes Waterways question. This address will be illustrated with slides and charts and will answer many questions that the public have been asking about the waterway. The address will describe the existing waterway and the traffic on it, and will describe the proposed scheme to make the waterway available from the head of the lakes to tidewater to large ships without trans-shipment.

The waterways project has been described as the most important question facing Canada. What are the plans, and what will they cost? What will be the relation of the United States to the waterway? Will Canadian sovereignty be infringed upon? The address will answer these questions, and will present a carefully prepared study of the relation of a 27 foot waterway to the Canadian economic structure. The speaker, who has made a careful investigation of the question, will go into the traffic available on the lakes, the importance of the wheat traffic, the relation of the Maritimes and the prairies to the project, and will examine the competition between Canadian and American routes for the traffic of the interior of the continent. The address will simply present the facts, and will not be a plea for or against.

The address is one of 120 that have been arranged by the association of Canadian Clubs throughout the Dominion. At approximately the same time, from coast to coast, speakers will visit Canadian Clubs and will lecture on this subject. Each speaker will be provided with a memorandum, carefully prepared by the Association, and edited to remove any bias by the Association committee, representing different sections and groups in the Dominion. The Association will also provide lantern slides, charts, and aids to make the lecture clear and easily understood. Most of the meetings will take place within the month of October or early November.

This itinerary covering the whole Dominion, is one of four which will be arranged by the Association during the coming year. The other subjects to be discussed before every Canadian Club are the strengthening of the British North American Act, the relations between French and English speaking administration in India

GLEICHEN CURLERS ELECT OFFICERS FOR COMING SEASON

The fine old Caledonian sport of curling is being taken up again this season with enthusiasm such as never before seen in Gleichen. The first annual organization meeting has taken place and a full schedule of officers has been stated. President Boyd occupied the chair during the session. The following were elected:

Honorary President, John Boyd. President, Mr. Matteson. Vice-President, N. T. Purcell. Secretary, A. F. MacCallum. Treasurer, W. P. Pineau.

Other members of the executive are L. Cuthbert, J. F. Gorrill and W. Jeffers. Rev. Davies was appointed chaplain of the organization.

The question of the skating rink for public skating was brought up and it was decided to ask the Town of Gleichen to again operate the same for the benefit of the public.

It was also decided that the ladies should be invited to curl, for each an annual fee of \$5 will be charged. A membership committee is to be appointed by the executive and will be expected to put on a drive for members.

The ice committee is composed of Messrs. Clifford, Jeffers and Gove, while Messrs. Cuthbert and Pineau are in charge of the schedules. Burn's Night on January 23rd, was again reserved for the annual dance, at which the various ships will be in charge.

Milo News

(By John Glambeck.)

Milo now has its own band that furnishes excellent dance music.

In spite of the hard times the young people will have their dances. There will be a masquerade in the Oddfellows Hall, Friday evening, Oct. 31.

The next joint meeting of the Milo U. F. A. and U. F. W. A. locals takes place in the Oddfellows Hall, Saturday afternoon, November 8th. Come early and avoid the rush.

Added to our long line of misery it points to a long hard winter of which we are already having the first installment. It is a question if very much of the planned outside work which is to give work to the unemployed will be carried out.

Clarence Umshield has gone to Oregon to attend the funeral of John Williams, who was accidentally killed on a hunting expedition. John Williams was a grand son of the late John Williams, one of Queenstown's first settlers, who died some years ago.

The first concert and entertainment put on by the Junior U. F. A. Local in the Pioneer School was very well attended and enjoyed by the audience. Mr. Beachman, the Milo telephone chief, who acted as chairman, kept the crowd roaring with his witty stories.

A number of Milo farmers are taking their cheap number one wheat over to a flour mill in Vulcan where they have it made into flour, at about half the cost of what the stores charge for flour, besides they are getting back bran, shorts, etc. Some of the porridge made by this mill, which I have tasted is excellent.

As to Jack Hugh's combination of a cottonwood and cherry tree about which he asks my opinion through the Call, I frankly admit it is beyond me. We have nothing like that growing in Milo. But here is something we can boast about. Mike Monner and Jim Burk have each grown a crop of logan berries in their gardens this summer. Can you beat that on the reserve?

There is always something to take the joy out of life. Now, after we have got our famous railroad connected with Calgary, our mail service has gone to the dogs and does not function with a darn. The Milo Board of Trade and the U.F.A. local have passed a resolution, petitions have been circulated and the president of the Board of Trade has been sent to Calgary to lay the matter before the powers that be. In the meantime we are wondering if it is going to be remedied.

Go careful Friday night boys or the "wops" will get you sure.

Armistice Day is Nov. 11, and as usual the Canadian Legion will give everyone a chance to help the disabled men by offering the poppies they make for sale.

Wilbur and Lou Jeffers have been accomplishing some fast work in excavating for the town sewer, which they will connect from near The Call office east nearly a block to their residences. Fred Jones is the master cement man on the job.

Preparations for the hockey dance, Friday evening, Halloween, is going on apace, states Cy McKay, head of the decoration committee. Cy states the decorations that will be on display have never before been seen by Gleichenites and that they will be a delight and joy forever.

been left with the executive. The south side of the rink apparently needs to be sealed in order to improve

The question of a caretaker has been considered. This will be attended to. The skips will be appointed at a general meeting which is to be held soon. The final report showed that the club was in fine standing with a surplus of \$14 after all bills are paid.

It is expected that with the lower fee a great many more will take interest in this fine sport and much enthusiasm will arise from a hearty participation in this old Caledonian sport.

A TOOTHACHE STARTED HIM ON ROAD TO FAME

Because of a toothache, Charles Mack is famous today.

Throughout the world the team of Moran and Mack, the two Black Crows, is known because George Moran can talk with such pitiful earnestness and Charles Mack can be so dumb in such a woeful, sleepy voice.

Mack explained how he got this way. One day he had a toothache. He kept right on smiling and doing his vaudeville turn. Finally he was so miserable he didn't care whether he worked in this frame of mind or not when he went on the stage. "I started in real sad like because I was, and the audience began to snicker. The sicker I got, the sadder I spoke and the more peevish I appeared, the louder they laughed. I answered several curtain calls, wanting to go to sleep on the stage each time." He has been talking that way ever since.

In their first motion picture appearance, Moran and Mack, the Two Black Crows, present somewhat their early life and how they happened to team up together and form this hilarious funmaking team. The picture has been aptly titled after that famous expression of theirs "Why Bring That Up?"

"Why Bring That Up?" was written by Octavus Roy Cohen, the author who made Birmingham famous with his "darktown characters." He has woven Moran and Mack, the Two Black Crows, into a sweeping tale taking them from obscurity to fame. "Why Bring That Up?" will be seen in Gleichen Saturday night.

RED & WHITE STORE

MEET US ON THE AIR
The Red and White Stores of Western Canada will broadcast a program of fine music each week for the entertainment of their thousands of friends. Listen in on Wednesdays, 7 to 8 p.m.

Bring Home Superb Heads

The hunting season is in full swing in the Province of Quebec. In the middle of October a party of three Nimrods left the Gray Rocks Inn, St. Jovite, Que., and took a hydroplane trip into the north to investigate moose hunting prospects. They got a big surprise and one of the highlight moments of their careers as hunters of big game. One of the party bagged a moose with the magnificent spread of 66 1/2 inches; another of them shot a 60 1/2 inch head and the third also got a trophy which though smaller than either of the other two, would have ranked high in any average moose hunt. They report that the section is unusually well stocked with the big animals. The object of the party was to get quickly into the north to spy out the land and come back later for the real hunting with all its pleasurable hardships of portaging, camping out, canoeing one's way through unknown or almost unknown territory and ending up by pitting one's brains and experience against the instinct, sagacity and wariness of the moose. They have returned to tell us of a Mecca for hunters of moose in the North. Lay-out shows the great moose-spread with hydroplane in background, and Tom Wheeler, proprietor of the Gray Rocks Inn, with guide.

Town & District

Boys' remember the Council's warning for Halloween.

St. Andrew's W. A. will hold their annual bazaar on Saturday, November 22nd. Keep this date free.

Rev. Mr. Davies has been appointed the local representative of the Drumheller musical festival.

For several weeks our silent policeman has not been on the job. Why? Hope the poor little fellow is not ill.

N. G. Hall was a visitor to Gleichen Tuesday after an absence of several years.

Mr. John C. Buckley, our popular M.L.A., has been suffering severely with an infection of one of his eyes but is improving.

Bill Dahn arriving Tuesday night from Medicine Hat and spent a few hours in town meeting his former friends.

The Red and White Stores are real live advertisers. The latest is to come on the air each Wednesday night from 7 to 8.

Miss Charlotte Barber will give a concert in the United Church on Thursday, November 13th, under the auspices of the Ladies Circle.

Many will want to hear again Mrs. Trainor's orchestra, which is to furnish music for a dance at the Meadowbrook Hall on Friday, November 7th.

The mail-order houses are now getting in their ready work for Xmas sales that should rightly come to local merchants and would if a few dollars were spent in advertising.

Cy Muckey promises new and original decorations for the Halloween dance next Friday night the like of which has never been seen anywhere before. Be sure and see them, for you will not be disappointed.

Still the wild geese and ducks continue their ravages on the unthreshed grain fields. They are wild and keep our hunters on the jump as they change their feeding grounds nearly every day.

The High and Public School teachers' convention is being held in Calgary, Thursday and Friday, Nov. 13th and 14th. As the teachers of our staff intend going the school will close Wednesday night till after the Thanksgiving holiday.

Mrs. Geo. W. Evans received a telegram last night that her brother Charles Staback, was drowned Tuesday morning, Oct. 28, at Herb Lake Man. His brother James wired from the Pae, Man, that the body had been recovered and he was leaving for Herb Lake. Some years ago Chas. was in Gleichen for several weeks and took in the heartiest welcome.

The Gleichen Canadian Club is having a stone monument to mark the lecture and entertainment on Monday, a big success. In addition to the lecture they will be four reels of films depicting scenery in every province in Canada. Everyone is welcome.

There is no admission charge, but a silver collection to help defray expenses will be taken up. Keep the date in mind, Monday, November 3rd. The meeting opens at 8:15 p.m. in the Gleichen Canadian Hall.

Much credit is due J. H. Wright road commissioner for the Blackfoot P.O. for the splendid work he has accomplished on the road north of Standard. He has straightened it out in fine shape and built it high and dry, where it is mostly crossed the two creeks, which is one of the worst spots in the whole district.

A lot of gravel is all it requires to make this road equal to the best and along the high grade at the creek a strong fence to avoid accidents.

H. S. Hill, representative for the Fuller Brush Co., spent the latter part of last week in Gleichen interviewing old customers and soliciting new business. He announces business exceptionally good and invites all those that have not his address to write him at Baseman when they will receive immediate attention. Thank you all his customers for their patronage and hoping to receive their future orders. A. S. Hill, Fuller Brush, Baseman.

Here and There

1227

The reason why interference by the government in business, or worse, the active management by the government in business, is harmful, is because it is not accompanied by efficiency, and increased taxation, was one of the outstanding statements made by W. D. Beatty, chairman and president of the Canadian Chambers of Commerce, at the annual dinner of the Canadian Chambers of Commerce held at Toronto recently. It was his opinion that the government and one that should be combating the selfish and American business men.

There are at present in the Province of Alberta 2,200 miles of rural roads, of which 1,815 miles are gravel roads, 1,475 miles second-class and 180 miles third-class. Over 15,000 miles of roads in the province or about 60 per cent are permanently improved and surfaced with either concrete, macadam or gravel.

Thoroughly representative of Canadian business across the breadth of the Dominion from Montreal to Vancouver, members of the Canadian Chamber of Commerce left the latter city October 16 on the Empress of Russia for the Chamber's official tour of inspection. The party includes financial, manufacturing, professional and business men of national reputation. It is the most important delegation ever to visit Canada for the Far East.

Benjamin Robertson, member of the Chamber for India, who has just completed a seven-week tour of Canada from Atlantic to Pacific, said he had been greatly impressed both by the people and the possibilities for economic development of the Dominion.

He was much struck to find throughout Canada a feeling of unity and the Empire which "one recognizes almost everywhere." Ben Robertson, who came to Montreal on the Montreal, August 22, left for John for New York to return to England October 6.
